FROM: Town Center Community Association Board of Directors

SUBJECT: Position on CB 70

DATE: September 26, 2018

After careful consideration by the Town Center Board, we have come to the conclusion and strongly support the approval of CB 70. As you the County Council know the approved Downtown Columbia Plan is detailed and complex. In addition, the components are interrelated and dependent on each other.

Monitoring of the implementation of the relationship of the plan is essential. Further, any requests for modification or deviation from the plan, which have already been introduced have created the risk of creating damage to the overall plan over time.

Having the proposed Zoning Counsel in place to prevent or at the very least reduce damage to the overall plan is a step in the right direction. It is for these reasons that the Town Center Board supports the APPROVAL of CB 70.
